LAB 3
Normalize / Reset

DESCRIPTION

Using the HTML template provided, attempt to apply the CSS reset and normalization techniques covered in today's class.

INSTRUCTIONS

Attempt the following:

1. Attempt to find and resolve all of the issues with the attached HTML and CSS files using a combination of the validation tools, the browser developer tools, and your own code troubleshooting skills. There are 10 errors in the HTML and 5 in the CSS.
2. Apply Eric Meyer's CSS Reset (and observe the changes).
3. Comment out the above code and apply Nicholas Gallagher's CSS Normalize (and observe the changes).
4. Ensure that all code formatting is consistent in both the HTML, and the CSS, with some sensible code comments.
5. Submit the files in a .zip archive to this Lab on Blackboard.

EVALUATION

Criteria	Mark
Submitted by the end of class (2 marks), or by the end of the day (1 mark)	/2
Submission includes corrections to all 15 HTML and CSS errors	/15
TOTAL	/17
